# A FEED MILL FOR **400 to 10,000 Head?**

**BUTZ UNIMATIC FEED-FLO PERMITS  
PROGRESSIVE EXPANSION WITH  
CONTINUING RETURN ON  
INVESTMENT**

Unimatic Feed-Flo is a new concept of building a stock feeding mill using pre-engineered, factory assembled equipment as "building blocks". There are standard arrangements to feed 400 to 2500, 2500 to 5000, and 5000 to 10,000 head. The smallest mill can be expanded to the largest by adding more "building blocks"—no equipment need ever be scrapped.

SEABAR, already known for engineered grain handling, is prepared to provide a complete engineering, supply, and installation service, or to supply individual components as required. While at the Searle Cattle Dispersion Sale, why not visit their feed-mill at East Selkirk? Ask any SEABAR or SEARLE representative for information.

## SEARLE FARMS

---

### *General Information*

**LOCATION**—The sale will be held in a comfortable sale tent at the Searle Ranch located three miles west of Lake Francis, Manitoba on good all-weather road. Lake Francis is located approximately 50 miles northwest of Winnipeg on highway 6. Watch for the Searle sign on the highway.

**ACCOMMODATION**—The Sale Headquarters will be at the International Inn, Winnipeg. The International Inn is located adjacent to the Winnipeg International Airport and very close to highway 6 where it leaves Winnipeg going to Lake Francis. Reservations will be arranged for anyone who wishes. Write or phone Michael Thompson at Seabar Equipment, 740 Syndicate Avenue South, Fort William, Ontario; Phone 622-9110.

**TRANSPORTATION**—Winnipeg is located in the heart of Canada and is served by all carriers. Every airline, bus and train in North America has direct connections into Winnipeg. Transportation will be available at all times from the International Inn to the ranch at Lake Francis. Contact the Seabar Equipment Ltd. headquarters at the International Inn.

**TERMS**—The terms of the sale are cash. Cheques will be accepted. Bank references may be requested. We will co-operate with anyone wishing to purchase by means of Farm Improvement Loans etc. Settlements are to be made with the clerk of the sale immediately at the conclusion of the sale. All stock is at buyer's risk as soon as sold. American Funds will be accepted and the premium in effect at the time of the sale will be allowed.

**HEALTH**—The Searle Ranch is located in a Tuberculosis Accredited Area and Brucellosis Certified Area. These cattle will go anywhere in Canada immediately from the sale. These cattle are eligible for export to the United States provided they are individually tested and examined by a veterinarian. The Canada Department of Agriculture, Health of Animals Branch will have a veterinarian present during the sale so that any animals sold for export will immediately be placed under test. The tests require three days to complete.

**GUARANTEE**—The cattle are in good health. Any known defects will be called to the attention of the buyers sale day. Since this is a dispersion sale everything is selling at the halter and without further guarantee.

**SHIPPING**—All animals to be shipped by rail will be delivered and loaded at Winnipeg gratis as soon after the sale as possible. Cattle liners and smaller trucks will be available for hire and assistance will be given with the loading of all trucks. FREE DELIVERY WILL BE MADE ON GROUPS OF 25 LOTS OR MORE GOING TO ONE PURCHASER UP TO 500 MILE RADIUS OF WINNIPEG. While each animal will be at purchasers risk after being sold, every reasonable care and attention will be given them while on the premises, or under the care of the vendor.

**INSURANCE**—The auctioneer is a representative of Lloyds of London Livestock Insurance and will arrange, upon instruction, to insure your cattle at purchase value against death from any cause right from the moment of purchase.

**LUNCH PROVIDED**—throughout each day of selling.

CANADA'S LARGEST

## Searle Grain Company Limited

Box 943  
Winnipeg 1  
Canada

Fellow Cattlebreeders:

It is a pleasure for me to welcome you to Searle Farms on the occasion of our livestock dispersion sale. The Lake Francis ranch has had a fine record for producing champion registered beef cattle, and we hope you will find this a good opportunity of acquiring some excellent stock.

The decision has been taken by our company to concentrate on a feedlot operation located at East Selkirk. This will be considerably expanded in the near future, and it is felt that all farm personnel and equipment should be consolidated there. In view of this, the sale of the breeding herd has been arranged, and it is anticipated that the land will be offered for sale at a later date.

We would like to extend an invitation to you to attend the barbecue at the ranch on Thursday evening, July 8. Also, we would be pleased to have you visit our feedmill and feedlot at East Selkirk.

Hoping this event will be pleasant and profitable for you, we are,

Yours truly,

SEARLE GRAIN COMPANY LIMITED,

*Stewart A. Searle Jr.*

S. A. Searle, Jr.,  
President.

### A MEMO TO CATTLEMEN—

This Searle Farms Breeding Herd Dispersal is a tremendous sale. Never before, and likely not again for a long time, have I been associated with such a herd of cattle—large in number and high in quality. We worked for six long days in May with a most able and co-operative crew from Searle Farm and Ranch and put every one of the 1,532 head of cattle in this sale through the chute, read every tattoo and ear tag, inspected every animal and checked out each pedigree on the registered ones. Never have I seen a more complete and accurate set of records and never has every animal checked out so well.

It is most evident that an experienced and qualified cow man did the selecting for all three breeds. Ab Colbert, recently retired farm manager, has put together a working herd of good headed, strong jawed cows with thickness, strength of bone and producing ability.

Ab Colbert had an interesting comment to make when we asked him which breed or which cross made the best cow under western range conditions. His answer was that no one breed is superior but that he found that there are definitely superior individuals within each breed. It is with these superior individuals of each breed that he has constructed the herd. This, together with the small amount of cross breeding that has been practised, makes this herd a most interesting study for anyone interested in improving their herds through selection and animal breeding.

The sale is a tremendous buying opportunity. Within each breed are herd sires and foundation cows of the best bloodlines available. Students of pedigrees of each breed will recognize these superior families. They could be used to form a top purebred herd. The grade cows and heifers are ideal for farms and ranches. With so many to pick from everyone will get what they want. Whether one or a carload you can fill your needs.

Plan on spending July 6 to 9, or the part of it in which you are interested, at the Searle Farms Lake Francis Ranch. It will prove to be an interesting and profitable experience.

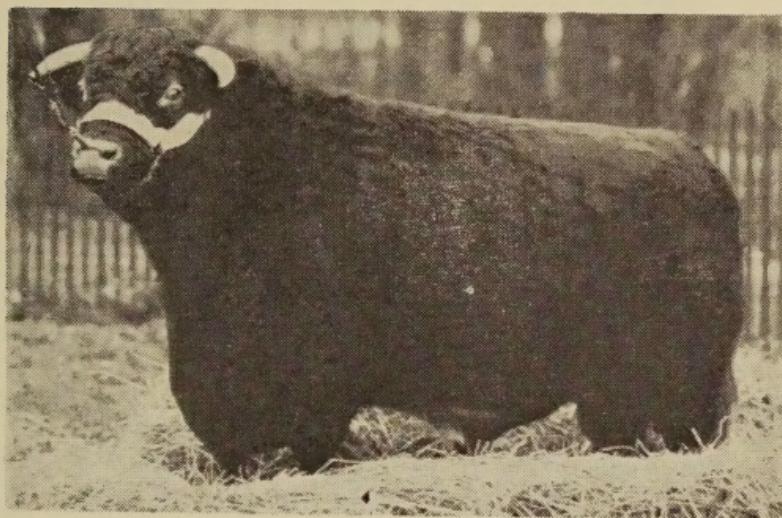

J. R. (Jock) BLACKLOCK,  
AUCTIONEER.

CANADA'S LARGEST

**COMPLETE BREEDING HERD DISPERSAL**

---

**NOTES**

**SEARLE FARMS**

---

**NOTES**

---

**CANADA'S LARGEST**

# **MECHANIZED FEED DISTRIBUTION**

## **TOFT FEEDER BOX AND BUTZ BUNKLINE COMBINE FOR MAXIMUM RETURN ON INVESTMENT**

TOFT Mixwell feeder boxes have earned a reputation for thorough mixing and sturdy construction. A wide range of models and sizes is available, both with and without built-in weigh scales. Boxes can be mounted on the truck of your choice.

BUTZ feed bunker posts are embedded in the concrete apron, and the wire rope fence is adjustable for use with sheep, calves, or full grown cattle. We believe this bunkline to have the lowest installed cost per foot.

Why not inspect both the above items at Searle Farms in East Selkirk? Ask any SEABAR or SEARLE representative for information.

**SEABAR**  **EQUIPMENT LTD.**  
740 Syndicate Ave. S.,  
Fort William, Ontario

# **CANADA'S LARGEST**

This herd has been selected  
for their superiority under  
western range conditions.

Top individuals of each  
breed constitute this  
herd whose founda-  
tion came from  
leading blood-  
lines.

A GREAT  
BUYING  
OPPOR-  
TUNI-
